# Cengage in Canvas

Beginning the spring 2025 semester Cengage will be accessed through Canvas. Being able to access Cengage through Canvas allows your instructors to directly link reading assignments and homework. Students no longer need to load their textbooks or worry about course keys. After you've linked the two accounts once, you will be able to access Cengage through Canvas in all your courses.

Linking Canvas and Cengage

To access Cengage for the first time through Canvas, go to any of your spring classes in Canvas and navigate to modules.

Click on a reading or MindTap assignment in Canvas.

Clicking on either a reading or a MindTap assignment will bring you to this page

Proceed by clicking where it indicates, which brings you to this screen:

Cengage

New to Cengage? Create Account

If you are a returning WCCC student and already have had a Cengage account, you will sign in here. Remember, your username is an email address.

If you have forgotten how to sign in, use this link for help.

If you are a **NEW** student, you will need to create your account by clicking here

<u>Returning Students</u>

If you have previously taken classes at WCCC and have already created a Cengage account, you will not create a new account. You no longer need course keys to add your books to Cengage as long as you access Cengage through Canvas and not directly.

Do NOT create multiple Cengage accounts.

<u>New Students</u>

WCCC does not create an account for you with Cengage. You are responsible for creating your own Cengage account when you start classes. Each semester you will use the same account to access your textbooks.

If you have any questions or concerns, please contact Dr. Lisa Stoll by either stopping into the library on campus or through email lstoll@warren.edu.
